- PUBLIC PARTICIPATION GROUP
PLANNING DEPARTMENT
REGIONAL MUNICIPALITY OF OTTAWA-CARLETON

December 1982 Edition

INTRODUCTION:

This list is one of a series of lists that have been published periodically since the list was first assembled by students working on a Young Canada Works grant from the Federal Department of Manpower and Communications during the summer of 1978. The list includes those organizations that are known to Public Participation Group and which 1) are based on membership of citizens, and 2) utilize some of their resources influencing local public policy-making. The updating of this list benefitted from the cooperation of the staff of area municipalities, several of whom publish their own lists using varying criteria. Their assistance is appreciated.

HOW TO USE THE LIST

All listings are ordered alphabetically. Each listing, though, includes a geographical code (see below) in a separate column that makes it easy to find groups by municipality. There is no attempt to classify a group by type as most of the groups indicate their interest clearly enough in their chosen name. The remaining information, each in its own column, are mailing address, contact person (usually the president or chairman), and the phone number of that person, or an answering service.

REVISING INFORMATION

If you find any information in this list to be incomplete, inaccurate, or simply out-of-date, we request that you phone the Public Participation Group immediately. The list is on a word processor and therefore is easily updated. In fact, if the date on this list is more than six months out of date, contact us for confirmation of specific listings or ask about a more recent edition. Also available in unpublished format are profile sheets on most associations, a community map showing the territory of community associations, and mailing labels (for non-profit use only).
